

Exhibit E

Tariff Schedule as of 8/29/2014

New Service Connection Fee:

The service connection fee for new service is \$12,000. This amount covers the two special assessments for the water plant and the plant upgrade that have been assessed to the community. This fee is to be paid at the time of a request for a 'will serve' letter.

Annual Flat Rate Water Charge:

The residential/commercial annual flat rate water charge is \$1400. The annual water charge will commence at the time the 'hot tap' is made to the GWC water line and will be prorated for the year in which the connection is made.

Metered Water Charge:

If metering is installed, the meter will be read once per year and water usage in excess of 250,000 gallons per year will result in a surcharge of \$34.00 per thousand gallons.
